1 SUMMARY

A Royal Academy of Engineering UK Intelligence Community Research Fellow and Lecturer in Applied Electromagnetics at Loughborough University (LU), I finished my PhD in September 2022. I have extensive experience in RF design, reconfigurable antenna arrays, metamaterials & metasurfaces, RF lenses, microcontrollers, fabrication, and measurement. I have collaborated on > 30 consultancy projects for industries in India and UK. I have >50 peer-reviewed papers and won multiple research and outreach awards. My research is focused on active mmWave beam-steering antenna, dielectric lenses, metasurfaces, orbital angular momentum waves, and satellite communications on the move.

2 WORK EXPERIENCE

- ❖ **Lecturer (Eq. to Assistant Professor) in Applied Electromagnetics, Loughborough University, UK** (Sept 24 – Present)
Lecturer in parallel to the Royal Academy of Engineering Research Fellowship, responsible for supervising research students, writing new research grants, inviting and maintaining national and international collaborations, co-manage research facilities and teaching subjects such as microwave engineering, electromagnetics and antennas.
- ❖ **Royal Academy of Engineering UK IC Research Fellow, Loughborough University, UK** (Jan 24 – Present)
Funded by the Royal Academy of Engineering under their prestigious scheme for UK Intelligence Community, working with multiple industrial partners on developing new beam-steering antennas for CubeSats. Additional responsibilities include writing new research grants, inviting and maintaining international collaborations, quasi-manage research labs and supervising students.
- ❖ **Research Associate, Loughborough University, UK** (Feb 23 – Dec 23)
Collaborating on several projects focused on antennas, metasurfaces, orbital angular momentum, additive manufacturing for RF applications and satellite communication, consulting on industrial and academic projects, supervising research projects and writing new research grant applications.
- ❖ **Future Communications Engineer, Satellite Applications Catapult, UK** (Oct 22 – Jan 23)
Responsible to work directly with CTO team on industrial consultation projects; developed a new Ku-Band beam-steering antenna for One Web satellite handover at ground stations; advised on new technology for applications in satellite communications.
- ❖ **Research Assistant, Loughborough University, UK** (Apr 19 – Sept 22)
Assisting with projects focused on antenna design and measurement, consulting on industrial and academic projects, writing new grant applications and supporting teaching modules (antennas, digital systems, and electronic circuits).
- ❖ **Head of Innovation (Voluntary Position), National Indian Students & Alumni Union UK** (Jun 19 – Jul 21)
Promoted within a year to Head of Innovation, lead a team of 12 volunteers providing end-to-end query and grievance redressal for students, and volunteer recruitment and lead projects to enable the organisation to leverage technology.
- ❖ **Innovation Coach and Consultant, Connecting Dreams Foundation** (Jul 18 – Feb 19)
Responsible for consulting and training of students and faculty under Atal Tinkering Labs on design innovation, introduction to electronics and programming established among 2400 schools throughout India.
- ❖ **Research Associate, CSIR – Central Electronics Engineering Research Institute, Pilani (India)** (Jul 17 – Feb 19)
Developed a computationally efficient, integrated, and dynamic model for the design of Staggered Double Vane Slow Wave Structure (SDVSWS) and beam-wave interaction analysis of a planar Traveling Wave Tubes (TWT) with a sheet electron beam to determine its RF performance.

3 EDUCATION

- ❖ **Doctor of Philosophy (Ph.D.)** (2019 – 2022)
Loughborough University, UK
Dissertation: Active Beam-Steering mmWave Antenna System for 5G and Beyond ([DOI](#))
- ❖ **Bachelor of Technology (B.Tech.): 78.3%, Ranked in top 15 out of 200.** (2013 – 2017)
Guru Gobind Singh Indraprastha University, New Delhi (India)
Major: Electronics and Communication Engineering
Dissertation Project: Implementing Vehicular ad-hoc Network with off-the-shelf Components

4 SKILLS

- ❖ **Electromagnetic Simulation and Antenna Designing** with EM modelling tools such as CST Microwave Studio, Ansys HFSS, Empire XPU, Microwave AWR Office, and Keysight Advanced Design Suite (ADS).
- ❖ **Programming and Scripting** in C/C++, MATLAB, Python and MS Excel/Google Sheets for automation and data analysis; and building embedded systems and automation units using microcontroller/microprocessor boards including Arduino, AVR MCU, Raspberry Pi and NodeMCU.

- ❖ **Operating Lab Equipment** including anechoic chamber, network analysers, spectrum analysers, 3D-printers, etc; and manufacturing PCB based antenna designs.
- ❖ **Research Interests:** Electromagnetics, Antenna Arrays, Microwave and Millimeter Wave Communication, Metamaterial and Metasurfaces, Dielectric Lenses, Space Communication, 5G/6G, Beamforming/Beam Steering Antennas, OAM waves.

5 FUNDING SECURED

- ❖ **Design and Development of a Ku-Band Antenna with GMV Defence and Security Accelerator** (Apr 25 – Mar 25)
Value: GBP 90,000 to LU and GBP 110,000 to GMV
The project is to commercialise a Luneburg lens-based ground station antenna previously developed within the fellowship programme.
- ❖ **Innovation Launchpad Network+ Researcher in Residence Funding Engineering and Physical Science Research Council (EPSRC)** (Aug 24 – Mar 26)
Value: GBP 50,000
Project focuses on developing an industrial demonstrator for beam-steering antennas hosted on a CubeSat. This project will aim to market the findings of RAEng UK IC Fellowship outcomes.
- ❖ **UK Intelligence Community Research Fellowship Royal Academy of Engineering** (Jan 24 – Dec 25)
Value: GBP 275,000 (£200k from RAEng and £50k from LU, with additional support worth £25k from Industrial Partners)
Project titled Small Platform Antennas for CubeSats (SPACE) focuses on developing novel low-power beam-steering leaky-wave antennas at X-band using additive manufacturing techniques for applications in small satellites. [Link](#)

Information about new submitted funding applications available on request.

6 AWARDS AND ACHIEVEMENTS

- ❖ Most Cited Paper in Electronics Weekly 2024.
- ❖ Recipient of [Royal Academy UK Intelligence Community Fellowship 2023](#).
- ❖ Recipient of [Loughborough University's Doctoral President's Award 2022](#) (LU most prestigious doctoral award).
- ❖ Recipient of [Sir Robert Martin University Prize 2020](#) (LU most prestigious student award).
- ❖ Runner-up for [Loughborough University's PhD Award for Overall Impact 2020](#).
- ❖ Recipient of Action Volunteer Bronze Award 2020 by LU Students' Union for STEM Promotion Activities.
- ❖ Recipient of [Electronics Weekly BrightSparks 2020 Award](#) for research and STEM Promotion in the UK.
- ❖ Recipient of Young Engineer Award 2019 by CSIR-CEERI, Pilani for research and supporting collaborations.
- ❖ Exemplary Performance Award for Student Training and Research 2017 by MSIT, India for developing collaborative research opportunities and training undergraduate students.
- ❖ Recipient of [IEEE Computer Society Richard E. Merwin Student Scholarship 2016](#).
- ❖ Recipient of MIT GSW Fellowship 2016 for the proposed idea of self-sustained LED Bulbs.
- ❖ Received Project Funding for Design of Self Sustained LED Bulbs from NGO: Sristi.
- ❖ Won IEEE MTT-S YouTube/Youku Video Contest for a demonstration of Offline GPS.
- ❖ Recipient of the IEEE Delhi SAC Outstanding Student Volunteer Award 2016.
- ❖ Winner of four hardware hackathons organised by TATA power, DTU 2015, IIIT 2016, etc.
- ❖ Winner of six paper presentation competitions organised by MSIT 2016, JMI 2016, etc.

7 POSITIONS OF RESPONSIBILITY

- ❖ Committee Member, IEEE Standards Committee (2025 – Present)
- ❖ Co-Lead, Active Metamaterials SIG, UK Metamaterials Network (2024 – Present)
- ❖ Publicity, YP and Technical Program Committee, IEEE Microwave, Antennas and Propagation Conference 2024, India.
- ❖ European Liaison, IEEE Space, Aerospace and Defence Conference 2024, India.
- ❖ Associate Editor, IEEE Open Journal of Antennas and Propagation Special Issue.
- ❖ Reviewer for IEEE TAP, AWPL, MWTL, OJAP, Access, IET EL, IET MAP, etc.
- ❖ Advisor, Atal Innovation Mission, Govt. of India (2017 – 2019)

8 JOURNAL PUBLICATIONS (KEY PAPERS FROM LAST 3 YEARS)

- 1) (Under Review), A. Kumar, A. Bansal, et al, "Additively Manufactured Multi-Functional Meta-lens Polarizer Antenna System for K/Ka Band Applications," IEEE Transactions on Antennas and Propagation, 2025.
- 2) (Under Review) L. Poli, A. Bansal, G. Oliveri, et al, "Time-Modulated EM Skins for Integrated Sensing and Communication," IEEE Journal of Selected Topics in Electromagnetics, Antennas and Propagation, 2025.
- 3) (Under Review) S. Ghosh, A. Bansal, C. Saha, "Comprehensive Analytical Characterization of Statistically Distributed Slotted Substrate Integrated Waveguide-based Leaky Wave Antenna for SLL and HPBW Reduction," IEEE Transactions on Antennas and Propagation, 2025.
